

SENIOR PORTRAIT ART

WHITE'S
PHOTOGRAPHY

Steven D. White

Welcome to White's Photography's High-Resolution Digital Packaging!

That's right, you will receive fully finished digital files, professionally retouched and creatively processed by Steve himself. Though White's Photography owns the copyright, all packages come with an unlimited copyright license agreement which allows you to make your own prints, announcements, or whatever you want as long as you don't alter or edit the images in any way.

After your session, we will provide you with your own password protected personal online gallery which has many useful options! Watch your web show, view images in black and white or color, use handy personal favorite folders, download your images, share your gallery with friends and family and much more!

Still want professional printing too?

No Problem! Most people are worried about getting quality printing on their own. We offer far below normal studio portrait prices for professional printing, and you can do it right from your own personal senior portrait online gallery. Get deeply reduced professional print prices and have them delivered right to your doorstep! Our lab caters exclusively to the professional photographer and each file is individually analyzed and professionally printed.

The best senior photography you can get...

anywhere! Steve is an international award winning photographer with a BFA in photography, he's a PPA Master Photographer, a PPA Craftsman Photographer, and studies with and teaches professional photographers across the country. White's Photography has blazed the senior portrait trail since 1965!
